

A vertical rectangular area filled with a dense, repeating pattern of horizontal and vertical lines, resembling a barcode or a heavily textured surface. The pattern consists of thin, closely spaced lines that create a grid-like appearance. The lines are black on a white background, and the overall effect is a high-frequency, repetitive visual texture. The pattern is uniform across the entire vertical span of the rectangle.

A vertical rectangular area filled with a dense, repeating pattern of horizontal and vertical lines, resembling a barcode or a heavily textured surface. The pattern consists of thin, closely spaced lines that create a grid-like appearance. The lines are black on a white background, and the overall effect is a high-frequency, repetitive visual texture. The pattern is uniform across the entire vertical span of the rectangle.

The image shows a vertical rectangular region on the left side of a white page. This region is filled with a dense, repetitive pattern of horizontal lines, creating a grayscale gradient from dark at the top to light at the bottom. The lines are closely spaced and vary slightly in intensity, suggesting a scan artifact or a corrupted image. The rest of the page is blank white.

The image shows a vertical rectangular area on the left side of a white page. This area is filled with a dense, repetitive pattern of thin, horizontal black lines. The lines are closely spaced and extend across the entire width of the rectangle, creating a textured, greyish appearance. This pattern is characteristic of a corrupted scan or a document that has been heavily redacted, where the original content is obscured by noise or black bars. The rest of the page is blank white space.

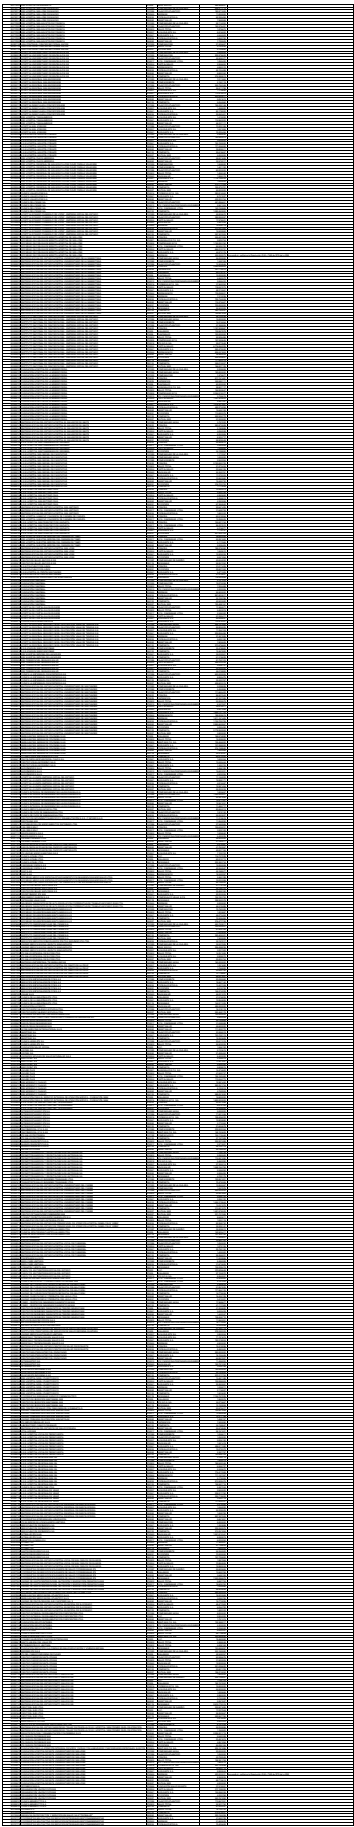

A vertical rectangular area filled with a dense, repeating pattern of horizontal and vertical lines, resembling a barcode or a heavily textured surface. The pattern consists of thin, closely spaced lines that create a grid-like appearance. The lines are black on a white background, and the overall effect is a high-frequency, repetitive visual texture. The pattern is uniform across the entire area, with no discernible text or other features.

The image shows a vertical rectangular area on the left side of a white page. This area is filled with a dense, repeating pattern of horizontal and vertical lines, creating a grid-like texture. The lines are thin and closely spaced, forming a dark gray, almost black, rectangular block. The rest of the page is blank white.

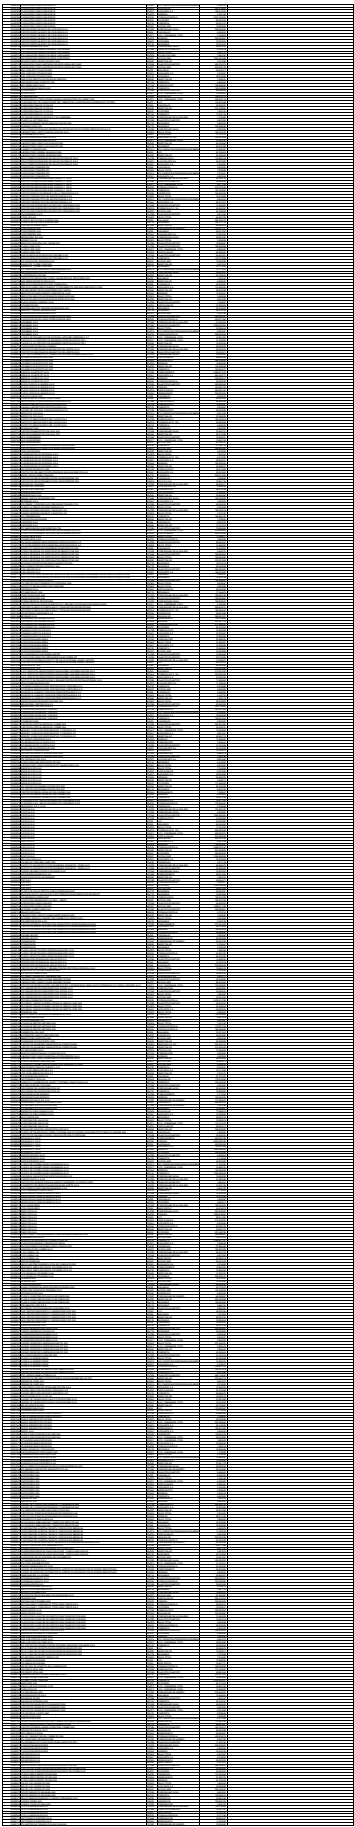

The image shows a vertical rectangular area on the left side of a white page. This area is filled with a dense, repeating pattern of horizontal and vertical lines, creating a grid-like or barcode-like appearance. The lines are thin and closely spaced, covering the entire vertical extent of the page. The rest of the page is blank white space.

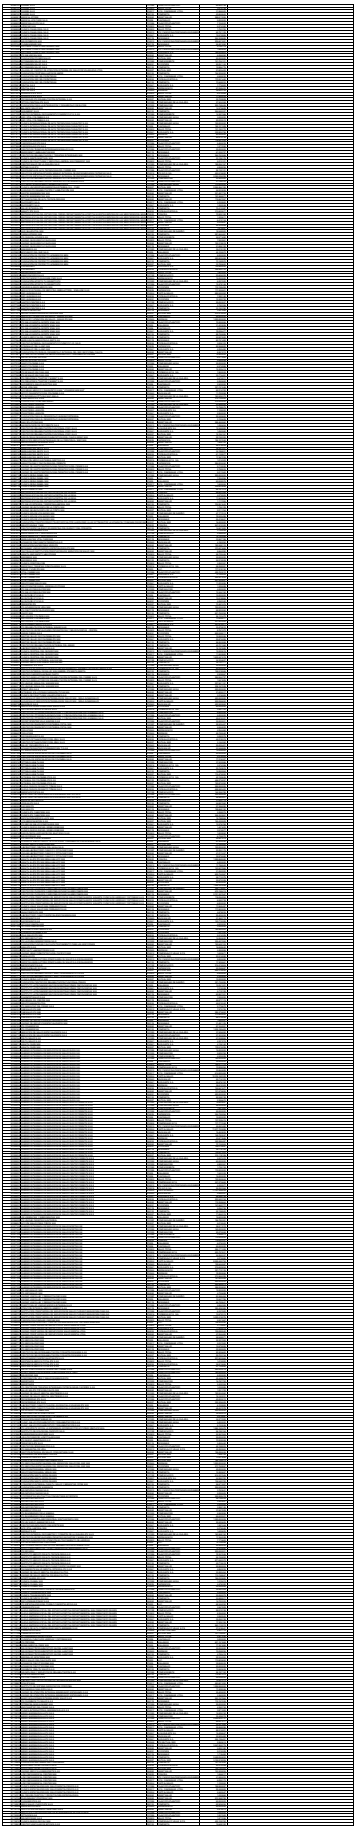

The image shows a vertical rectangular region on the left side of a white page. This region is filled with a dense, repetitive pattern of horizontal lines, creating a grayscale gradient from dark to light. The lines are closely spaced and appear to be a scanning artifact or a corrupted image element. The rest of the page is blank white.

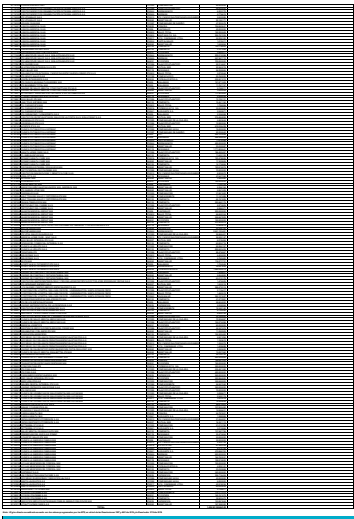

The image shows a vertical rectangular area on the left side of a white page. This area is filled with a dense, repeating pattern of horizontal and vertical lines, creating a grid-like or barcode-like texture. The lines are thin and closely spaced, covering the entire vertical extent of the rectangle. The rest of the page is blank white space.

A vertical rectangular area on the left side of the page, filled with a dense, repeating pattern of horizontal and vertical lines. The pattern consists of thin, closely spaced lines that create a grid-like texture. The lines are black on a white background, and the overall appearance is that of a heavily textured surface or a barcode. The pattern is uniform and extends across the entire height of the rectangle.

The image displays a vertical rectangular area on the left side of a white page. This area is filled with a dense, repeating pattern of horizontal lines, creating a grayscale, textured appearance. The lines are closely spaced and vary slightly in intensity, giving it the look of a barcode or a document that has been heavily redacted or obscured by a filter. The rest of the page is blank white space.

The image shows a vertical rectangular region on the left side of a white page. This region is filled with a dense, repetitive pattern of thin, horizontal black lines. The lines are closely spaced and appear to be a scanning artifact or a corrupted section of a document. The rest of the page is blank white.

The image shows a rectangular area filled with dense, horizontal, black and white lines. This pattern is characteristic of a corrupted image or a very low-resolution scan of a document page. The lines are closely spaced and cover the entire area, making any underlying text or graphics completely illegible. The overall appearance is that of a heavily distorted or broken image.
